5 **A03-04-032 - Arrowhead Manor Water Company, Inc. (Arrowhead).**
[3587]

Arrowhead, a privately owned water utility in Cedar Glen, California, serving approximately 500 customers, filed this application on April 25, 2003, seeking to sell and transfer ownership of the company to Rio Plaza Water Company, Inc. The Commission's Water Division now moves for dismissal of the application on grounds that Arrowhead is in receivership, with disposition of its assets subject to the direction of the San Bernardino County Superior Court. The motion to dismiss, which is unopposed, is granted, without prejudice to refile if circumstances so warrant. This proceeding is closed.

Regular Agenda - Energy Orders

47

A03-05-012 - Pacific Gas and Electric Company (PG&E).

[2910]

PG&E seeks Commission approval pursuant to Pub. Util. Code §851 of certain licenses and leases of PG&E property already in effect (the “agreements” or “transactions”). In total PG&E seeks approval of 256 transactions. Most of these agreements were entered into several years ago. Each permits various uses of PG&E property by third parties. The transactions did not have prior approval of the Commission pursuant to Pub. Util. Code §851. PG&E states that it discovered many of these agreements in various branch office files while conducting an extensive search in the PG&E bankruptcy proceeding. Because the 256 transactions may implicate environmental review or may not meet the criteria for General Order (GO) 69-C transactions, PG&E states that it decided it would be prudent to seek formal approval of the transactions under Section 851. In addition, PG&E asserts that Commission environmental review under the California Environmental Quality Act (CEQA) is unnecessary because the majority of the transactions fit within CEQA exemptions, nine received adequate local CEQA review, and six pre-date CEQA and are thus not subject to its requirements. This decision grants Section 851 approval for 255 of the transactions on a prospective basis. The Commission notes one of the transactions fits within recent Commission decisions finding agreements allowing floating boat docks as appropriate under GO 69-C. Therefore, Commission's approval here is not required. The decision declines to impose a penalty for failure to obtain prior approval of the transactions. With respect to CEQA, the Commission notes that because all of the agreements are several years old, any activity which may have warranted Commission's environmental review has long since occurred. Accordingly, Commission's CEQA review at this time has little value for practical purposes. Nevertheless, the Commission will address the CEQA issues raised by PG&E and determine where possible, the applicability of the claimed exemptions. This proceeding is closed. [3306]

This alternate differs from the Proposed Decision in the manner in which CEQA concerns are resolved and in its retroactive treatment of the leases. The Proposed Decision approved the leases on a going-forward basis, while declaring them to be void for periods prior to the approval. In response to comments, the ALJ reversed that position, proposing that the Commission grant a retroactive exemption for the leases, pursuant to Section 853. The alternate adheres to the ALJ's original position on this issue.

48a**ALTERNATE TO ITEM 3268**

[3269]

This alternate differs from the Proposed Decision in 3 ways, none of which affect the revenue requirement:

1. It modifies Section 5.5 Service Guarantees to adopt ORA's proposed 8-part service standard.
2. It modifies Section 6.2.7 Employee Compensation Issues to point out weaknesses in the current Total Compensation Study methodology, order SCE to develop a new study for the next GRC, and adopt Greenlining's proposal to require SCE to annually report to the Commission on total compensation to its ten most highly-compensated employees.
3. It modifies Section 13.2 The Case for Performance Incentives. CCUE had proposed benchmarks and incentives. SCE and CCUE then reached a settlement adopting modified benchmarks and incentives. The PD rejects both, stating that incentives are inconsistent with Cost of Service ratemaking. The alternate adopts CCUE's proposal.

There are changed Findings, Conclusions and Ordering Paragraphs to match these text changes. In all other respects, the drafts are the same.

I02-06-002 - Related matters. This Alternate Decision of Commissioner Kennedy makes changes to the Proposed Decision of ALJ Wetzell and does not incorporate any modifications from Commissioner Wood's Alternate Decision. Additionally, the changes made to ALJ Wetzell's PD represent an increase in SCE's current rate base of \$129 million. Specifically, this Alternate Decision would change the Proposed Decision by:

Modifying Section 4.5 to increase Transmission and Distribution Operation and Maintenance Expenses by \$1.9 million.

Modifying Section 5.2.3.4 to fully fund the Economic and Business Development Program - \$2.514 million.

Modifying Section 5.4.2 to grant Edison's request to recover \$10.8 million associated with Real Time Energy Metering;

Modifying Section 6.5.2 to increase Information Technology Expenses by \$9.969 million.

Modifying Section 6.5.3 to increase Information Technology Capital Expenditures by \$6 million.

Modifying Section 8.5 to reduce TURN's proposal to treat customer deposits as an offset to rate base to the 1996 - 2001 five-year average of \$80 million rather than the PD's use of a 2000 - 2001, 13 month average of \$117 million.

Modifying Section 9.2 to approve SCE's request for an increase in depreciation rates for certain accounts.

This decision implements Assembly Bill 1002, establishing a natural gas surcharge to fund public purpose programs. The decision finds that the surcharge is a tax, and not a fee, and addresses matters including customer exemptions, formulas for calculating surcharge rates, accrual of interest on surcharge revenues, and accounting matters. The decision approves, subject to modifications, Pacific Gas and Electric Company's Advice Letter 2440-G, identifying surcharge balancing accounts. This decision also initiates a public interest research and development (R&D) program for gas that appoints the California Energy Commission as administrator, establishes criteria for R&D projects, and sets R&D funding at an initial amount of \$12 million for 2004, with the potential for R&D budget increases in later years. I02-06-003 - Investigation on the Commission's own motion into the operations, practices, and conduct of Pacific Bell Wireless LLC dba Cingular Wireless and related entities (collectively Cingular) to determine whether Cingular has violated the laws, rules and regulations of this State in its sale of cellular telephone equipment and service and its collection of an early termination fee and other penalties from customers.

This modified decision finds that Cingular's corporate practice and policy from January 2000 to April 31, 2002 violated (1) Pub.Util.Code §451 and D95-04-028 because it allowed no trial of its wireless service and prohibited early termination of wireless service contracts unless the customer paid an early termination fee of \$150 or more, even though testing wireless service by using the phone is the best way for a customer to ascertain whether the service meets his or her needs, and (2) violated §§451, 702 and 2896 and D95-04-028 because it failed to disclose known network problems during 2001 and, in spite of these problems, continued to prohibit refunds/returns and require early termination fees for early cancellation of wireless service contracts. Decision orders a penalty of \$12,140,000 and requires reparations to customers. A01-02-035, A02-02-031, A02-02-032, A02-02-034, A02-03-002 - Related matters. This decision adopts revised monthly recurring unbundled network element (UNE) rates for several UNEs that Pacific Bell Telephone Company dba SBC-California sells to competitive local exchange carriers. The UNEs for which revised monthly recurring rates are adopted are loops (including 2-wire, DS-1 and DS-3), switching, dedicated transport, signaling system 7 (SS7) links, and the DS-3 entrance facility without equipment. The rates in today's order replace interim rates for loops and switching that were set in D02-05-042 and replace rates for other UNEs originally adopted in D99-11-050. This order adopts a statewide average 2-wire loop rate of \$12.92 and a flat rate for switching usage of \$2.64 per port. These rates result in a UNE-Platform rate of \$16.90 per month. The Commission sets these rates based on the average of the results of the models proposed by SBC-CA and the HAI Model, Version 5.3, proposed by AT&T Communications of California and WorldCom, Inc. An average of the two competing models is used based on the finding that both models are flawed. These proceedings are closed.

A01-02-035, A02-02-031, A02-02-032, A02-02-034, A02-03-002 - Related matters. This alternate decision adopts revised monthly recurring unbundled network element (UNE) rates for several UNEs that Pacific Bell Telephone Company dba SBC-California sells to competitive local exchange carriers. The alternate adopts a statewide average 2-wire loop rate of \$13.26 and a flat rate for switching usage of \$2.77 per port. These rates result in a UNE-Platform rate of \$17.38 per month. The rates are based on the average of the results of the models proposed by SBC-CA and the HAI Model, Version 5.3, proposed by AT&T Communications of California and WorldCom Inc. An average of the two competing models is used based on the finding that both models are flawed. This alternate incorporates inflation factors into the SBC-CA model and it assumes the use of 60% Integrated Digital Loop Carrier equipment as a modeling input.

A02-07-021 - Southern California Water Company (SCWC).

In Interim Decision 03-05-001 on May 8, 2003, the Commission approved a settlement between the City of Santa Monica (City) and SCWC that conveyed SCWC water rights to the City and relieved SCWC from its participation in a number of pending lawsuits related to the Charnock Groundwater Basin. The issue of ratemaking treatment of the settlement proceeds and the issue of contamination payments made to SCWC by oil companies were deferred to this phase of the proceeding. This decision resolves those issues. The application is closed.
